

A2 CofC - Drone Certificate of Competency Practice Test Questions and Answers

1. What is the purpose of the UK Drone Safe Register?

- A) It is not an official CAA register — CAA registration is done via the CAA portal directly
- B) It registers all commercial drone operators with HMRC
- C) It is the official operator ID issuing authority
- D) It provides insurance for drone pilots

2. What is a METAR and how is it useful for drone pilots?

- A) A routine aviation weather report giving current conditions at an aerodrome including wind, visibility, cloud, and temperature
- B) A forecast of weather conditions for the next 24 hours
- C) A document detailing airspace restrictions due to weather
- D) A satellite image service for weather planning

3. What is a NOTAM and why is it important for drone pilots?

- A) Notice to Airmen — it provides temporary information about hazards, restrictions, and changes to airspace
- B) A mandatory pilot licence renewal notice
- C) A notice about new drone regulations from the CAA
- D) A weather briefing document from the Met Office

4. What is the Flyer ID under the UK drone registration scheme?

- A) A unique number assigned to each individual drone
- B) A qualification number proving the pilot has passed the A2 CofC exam
- C) A registration number that the person flying the drone must hold after passing a theory test
- D) An insurance policy reference number
